

Presentation and Discussion of Report of Chief Medical Officer

The Chief Medical Officer's report will include a written report regarding compliance with NRS 209.382 as well as an update on the status of Lovelock inmate Robert Stockmeier. Mr. Stockmeier was the petitioner in a hearing which occurred July 20, 2016 in which Chief Deputy Attorney Linda Anderson represented the Division. This issue revolves around Mr. Stockmeier's contention that the Division has failed to semiannually report to the Board of Prison Commissioners regarding the "nutritional adequacy of the diet of incarcerated offenders". The formal report on November 15, 2016 will be given by Cody Phinney, Administrator for the Department of Public & Behavioral Health, and Mr. Vincent Valiente, REHS, Environmental Health Specialist III for the Division of Public and Behavioral Health.
